WORK EXPERIENCE

System Engineer(Frontend Developer)
Tata Consultancy Services

08/2021 - Present   *kolkata,India*

Responsibility/Achievements

- Working as a frontend developer to build responsible, user-friendly UI applications.
- Using of reusable components to reduce efforts and increase efficiency.
- Collaborated with senior developers to learn best practices in coding and software development.
- Conducted testing and debugging activities, contributing to bug fixes and code enhancements.
- Achieved client satisfaction through enhancements upon continuous interactive feedback from business users.

PROJECTS

Deligenta, UK (08/2021 - Present)

Diligenta, is a UK-based FCA regulated subsidiary of Tata Consultancy Services (TCS), a leading provider of business process services for the Life and Pensions (L&P) industry. Currently, I am working on the UI for a new service which is being newly launched by Deligenta and Phonix group. I with my team have developed the UI as per the customer requirements, using Material Angular and Typescript, and have ensured 100% satisfaction from the client side. Also, I have contributed in bug fixes and code enhancement. Using of resuable components in the project have made the code more efficient and new features can be easily added based on client's requirement without any rework.
